Art Unit 1711

This Office action is in response to applicants' request for continued examination.

All remaining rejections and/or objections follow.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5-16, 18-20 and 22-25 are rejected under 35 U.S.C. § 102(b) as being anticipated by Mehler (Kunststoffe, 88, 1872, 1874 and 1876.

See the Office action of 09-27-02 at the paragraph bridging pages 5 and 6.

Applicants' arguments filed 8-21-03 have been fully considered but they are not deemed to be persuasive.

Applicants' remarks are moot except with regard to Mehler since all other rejections have been withdrawn.

With regard to Mehler, the second line of claim 1 recites "comprising" and therefore fails to exclude high impact polystyrene such as applicants allege is excluded by applicants' amendment.
